

# Is Your Old, Outdated Phone System Causing You More Problems Than It's Worth?

If you think you have outgrown your current phone system and are tired of constant downtime, dropped calls, repairs and maintenance, it might be time for you to consider a VoIP system for your office.

The right VoIP system can likely save a considerable amount of money AND give you more features and flexibility to support customers, drive sales and manage calls throughout your office.

## Here Are 3 Big Reasons Why Thousands Of Small Businesses Are Trading In Their Current Phone System For VoIP:

1. **Drastically reduces your phone bill.** If you have multiple offices, or even remote workers, new voice-over IP technology integrates your data and voice networks to drastically reduce long distance and lease line charges you are currently paying.
2. **Eliminates expensive technician visits.** These new systems are built so that your current IT person or company could easily maintain it in-house. No more waiting around for high-priced phone technicians to show up or paying high service call fees.
3. **FREE voice mail, auto attendant, call processing, automatic call distribution.** New VoIP systems come with all features included. À la carte add-ons are now a thing of the past. Imagine a phone that can automatically get to you anywhere and everywhere with a click of the button and much more.

## Free Phone Audit Shows You How To Save \$1,000 to \$3,000

### Guaranteed In 2015

If you currently have an old PBX legacy system, sign up to receive a **Free Phone Audit** and we will come out to your office and do a complete communications analysis for your company. **At the end of our audit, we'll summarize our findings and show you exactly where we can save you a bundle this year.**
